

FOR ACCOUNT EXECUTIVES AND SALES TEAMS

Every call summarized, every next step dated, and the CRM filled from what was actually said.

MedTx listens to the conversation with everyone's consent and writes the record from what was actually said, on your phone or computer.

Less time on notes. More time with customers.

WHAT MEDTX DOES FOR YOU · SALES

- ✓ A call summary: attendees and roles, and the customer's problems and goals in their words
- ✓ Commitments on each side and dated next steps
- ✓ Budget, decision process and timeline as stated, objections and how you answered them
- ✓ CRM fields filled only from what was said, and a follow-up email draft

Only what was said

Summaries, CRM fields and QA scores come only from the conversation. Anything not said is left blank and flagged.

Private by design

Never sold and never used to train AI models. Recordings are deleted after 48 hours.

Consent built in

Everyone on the call is told and agrees before recording, as all-party consent states require.

Transparent cost

You see what every call costs. Usage beyond your plan is billed at cost plus a stated percentage.

FOUNDING PRICING

Founding pricing; subject to change before launch.

BUSINESS

\$49/month per person

Includes up to \$20 of AI usage
Beyond that, usage at cost plus 25%

TEAMS

By quote

For sales teams and contact centers
